Home Page

This page displays a form where the user has to provide specific details such as Gender, Marital Status, Education, Limit amount etc..

- All the fields are mandatory .
- Incase if we miss out one input the website will alert you saying that "please fill this field"
- Based on the given data the model will predict whether the user is defaulter or not.

OUTPUT PAGE

- After clicking on "submit" button , the prediction will be shown in the output page.

- No -> means the user is not defaulter

- Yes -> means the user is defaulter.
